Subject: A special greeting from your dentist ...

## Now you can have a movie-star smile too!

Porcelain **veneers** cover stains on your teeth (even ones that whitening can't!) and close spaces and gaps that braces would take years to fix!

If you're ready to get the **movie-star smile** you've always dreamed of, we'll be happy to review veneers and other cosmetic procedures we offer at your next appointment. Have questions? We're just a phone call away.
